Asperger's Centre

The Asperger's Centre is a support and knowledge centre. Its aim is to support families with children and young people who have Asperger's syndrome/high-functioning autistic spectrum diagnosis, as well as adults with a diagnosis.

We are a part of Habilitering & Hälsa, which is run by Stockholm County Council.

June 2015

ASPERGER'S CENTRE

We provide

- information and knowledge about the functional impairment and its consequences in daily life
- the opportunity to meet others in a similar situation
- support based on situations that arise in relation to the functional impairment

The support is principally provided in group form.

Age 7-17

We make contact with parents after a diagnosis has been made and the investigating unit has sent the neuropsychiatric study to the centre.

We offer:

- A welcome meeting for parents with a brief presentation of what the centre can offer.
- Introductory course for parents whose child has recently been diagnosed.
- A programme of relevant lectures and groups.
- Themed lectures regarding relevant subjects.
- Groups for parents, children/young people and relatives.
- Telephone advice, Wednesdays between 09.30–11.30.

18 years and older

You come into contact with us via a referral from a local habilitation centre.

We offer:

- Groups about the diagnosis.
- Various continuation groups, for example regarding communication, emotions and relationships.

- Lectures by individuals who have their own diagnosis.
- Lectures about Asperger's syndrome for your relatives.

More information

We have produced information material and literature tips that we are happy to share.

Visit our website, where you will find information about our range. Read more at www.habilitering.se, where you will find our pages under Center & enheter.

Telephone number: 08-123 355 00.

Our reception is open Mon–Fri from 08.00–15.00 (closed for lunch from 12.00–13.00).
